Our policy embraces following key principles:

- Utilising natural resources including raw materials efficiently.
- Protecting environment including prevention of pollution and emission reduction.
- Adopting technologies to eliminate hazards and reduce OH&S risks in our business processes.
- Minimising work related injury and ill health by providing Healthy and safe workplace, through continual improvement in its process and practices.
- Promoting the culture of EOHS awareness among employees, business associates and surrounding communities through communication and training.
- Involve employees in driving continual improvement of environment, occupational health and safety.
